## DETAILED ACTION

### *Status of Action*

The Examiner acknowledges receipt of application number 10/538,244 filed on 06/06//2005.

In claim 4, please adds “,” in front of the word benalaxyl for clarification (see line 2).

### *Status of Claims*

Accordingly, claims 1-8 are presented for examination on the merits for patentability.

### *Claim Rejections - 35 USC § 112 second paragraph*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

**Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.**

Claim 1 is indefinite because it recites a synergistic composition comprising a first composition and a second composition without setting forth the constituents of the composition besides the actives of formulas (III), (IIIa), (II), and actives of (b), (c), (d) and (e). It is unclear what other component(s) Applicants are intending to encompass in the first and the second compositions, and one of ordinary skill in the art would not be reasonably apprised of the metes

Art Unit: 1616

and bounds of these two compositions of the invention, and the claim is, therefore, rendered indefinite.

It is suggested that claim 1 be amended to recite “a synergistic composition comprising a first compound represented by formula (III) or formula (IIIa) (see structures in claim 1) and a second compound selected from (a), (b), (c), (d) or (e) below, wherein (a) is....” in the reply.

Claims 2-7 are also rejected because they depend from claim 1, and thus incorporate its limitation.

### ***Conclusion***

No claims are allowed.
